SPORTS CASES

*Pictured from left to right:
SKB Owners/Founders - Dave Sanderson and Steve Kottman*

OUR STORY

In 1977, two ambitious college students developed the first SKB case in a small Anaheim, California garage. Today, SKB is known around the world as the leading innovator and manufacturer of the finest musical instrument and equipment cases. Since the inception of our company, in addition to SKB branded products, leading companies have proudly supplied SKB cases for protection of their own products. SKB builds cases for a variety of markets (Music Pro AV, Sports, Industrial and Military) and that diversity allows us to be more creative and innovative in our case designs across the board. We have a true sense of accomplishment for more than 35 years of steady growth and for our adherence to quality standards that has made us industry leaders. We never lose sight of the fact that our customers give us the opportunity to excel and we are grateful for their trust and loyalty. We remain dedicated to the assurance that every case with a SKB logo has been manufactured with an unconditional commitment to unsurpassed quality.

Indestructible Injection Molded Watertight Cases

- **Lighter and Stronger**
Impact lab tested and shown to be over 2.5 times stronger than the competition.
- **Watertight and Dustproof**
Manufactured to withstand the toughest elements. Meets Military Standards: MIL-STD-810G MIL-STD2073 MIL-C-4150J STANAG 4280 DEF-STAN 81-41 ATA 300.
- **Lifetime Warranty**
SKB brand hardshell cases are fully warranted against defects in materials and craftsmanship for the life of the case to the original owner.

“As Bow Hunters, we spend a ton of money on our gear and going on hunts. Our success depends on our equipment being protected. That is why we trust SKB.”

—DIYbowhunter.com

Ultimate impact strength polypropylene co-polymer provides superior protection and is lighter and stronger than the competition.

Interlocking features ensure stable stacking on uneven surfaces.

Reinforced padlock hasps allow the use of standard size padlocks for added security. SKB TSA accepted padlocks are an available accessory.

Watertight/dustproof design using tongue & groove construction and a replaceable o-ring seal to achieve an IP-67 rated protective case.

Automatic ambient pressure valve allows case to equalize pressures caused by altitude or temperature change while keeping water molecules out, even when submerged.

Patented Trigger Release Latches. Key locking TSA accepted versions are available.

Two man lift overmolded handle reduces hand fatigue.

Quiet glide in-line skate wheels ensure smooth trouble free movement.

“As a host of an outdoor television show, a father and Portfolio Manager, there is not a lot of time leftover for failed equipment. Where ever we go, I know I can grab my bow out of my SKB case and go hunt. SKB cases are made for a traveler like me!”

—Travis Creekbaum
Host ScentBlocker's The Chase
w/Leigh & Travis

“Year after year, we put a lot of miles on our hunting equipment. I would only trust SKB to encase my bow and prevent damages from airport handlers and tough road travels. Also, I like immediately picking out which case is mine thanks to the Pink iSeries 3614.”

—Leigh Creekbaum
Host ScentBlocker's The Chase

Exclusive Moisture Control System

SKB Dry-Tek Rifle Bags and Take Down bags feature the patented "Dry-Tek Difference". Two-layer padding works to draw moisture from the inner bag: The inner pad layer enables water to pass through to the outer layer where a remarkable one-way laminate membrane allows water molecules to exit the bag, but not enter. **SOLD IN 4 PACKS.**

THE LINING: Absorbent fibers are heat pressed to create a raised pattern surface over the lining material.

THE PADDING: Two layers with specific functions team up to maximize the moisture "draw" effect. Quilted to the lining is an inner pad layer, unaffected by water which quickly passes through to the next layer. Quilted to the outer shell, the second pad layer provides formidable impact protection for the weapon and continues to expedite the moisture escape.

THE LAMINATE: This remarkable "one-way" membrane, applied to the outer shell, will allow water molecules to exit the bag but not to enter.

THE SHELL: 600 DENIER poly blend cross dye. Two fibers of different colors are woven together creating a rugged, natural look and feel.

Dry-Tek® Rifle Bags

- Heavy-duty oversized Nylon zippers for secure, durable closure.
- Slide-through system for padlock security. Lock not included.
- Exterior zippered pockets for ammunition and accessories.
- Leather handle and adjustable sling.
- Hardware is cast and rust repellent.
- 1 year Soft Product Warranty

METHODS OF CONSTRUCTION

INJECTION MOLD

One of our Injection Molders in action.

This is SKB's latest venture in our quest to provide the most innovative hard shell case products. Injection molding is an expensive investment and there is no room for error. Made with extreme pressure, even the smallest injection molded part requires a very large and heavy mold. SKB has molds that are nearly 15 tons! Many of our parts, such as our patented trigger latches are produced by the injection mold process. Our iSeries cases include a gasket that makes the case watertight and dustproof. Our latest injection molded cases for guitars and basses are very popular with touring musicians. These cases have dual lives as they are also used for military weapons. Never before has an ATA flight case been so lightweight, yet so advanced.

ROTO MOLD

Pictured: Molds rotating during production.

In 1997, SKB invested in roto-mold machinery that is ideal for making larger cases and cylindrical cases. The PE roto-mold material starts as a fine powder that is measured according to the size of the case. The material is then sealed up in a multi-piece aluminum mold and fixed on a biaxial rotating wheel. The material is heated at 800°F in a very large oven while constantly rotating. The powder melts and coats the inside of the mold and after cooling, the cast is disassembled and the case is removed. Roto-Molding is great for providing maximum protection and can withstand maximum impact in transport.

VACUUM FORM

Pictured: Vacuum mold for keyboard case.

Also known as thermal form, this was the first and most recognized "SKB Style" case. This method is very popular for guitar or band instrument cases. In 1990, SKB developed the first vacuum formed rack case. ABS* or PE* is formed into solid sheets of material. The sheets are heated and are vacuum formed around aluminum castings, thus taking the shape of the mold. The edges have the distinctive aluminum valance that provides rigid construction as well as a secure fit. Vacuum formed products are known for their light weight and extreme durability.

SKB Warranty

Lifetime Warranty

SKB Injection-molded, Roto-molded, and ATA-rated hard case products are fully warranted against defects in materials and craftsmanship for the lifetime of the case to the original owner. SKB will repair or replace any product found to be defective. SKB DOES NOT REPLACE CASES FOR DAMAGED HARDWARE. All locks, handles, and wheels have been made to be field replaceable, take just minutes to install, and will be supplied to you at no charge via US mail. Please contact our customer service department at (800) 654-5992 with any parts requests.

\$1500 Content Coverage Warranty

Offered with all ATA-rated SKB Sports Hard Cases, no registration required. SKB will cover up to \$1500 to repair or replace equipment damaged by a commercial airline carrier while secured in one of our ATA-rated cases. If your gear has been damaged on a flight, first file a claim with the airline (SKB recommends keeping copies of all documents related to your claim and taking pictures of damages whenever possible). Once the claim has been settled, submit it and related documents to SKB for review. SKB may provide up to \$1500 to cover any outstanding cost above the airline's claim amount. For more information on this warranty program, please contact our customer service department at (800) 654-5992.

SKB Five Year Warranty

Cases with our Five Year Warranty are warranted for five (5) years to the original owner against defects in materials and craftsmanship. Any defects in workmanship will be covered by SKB. Damages due to accident, improper care, negligence or normal wear, where SKB is not at fault, are not covered.

Soft Product Warranty

SKB Soft Products are fully warranted to the original owner against defects in materials and craftsmanship for one (1) year from purchase. Any defects in workmanship will be covered by SKB. Damages due to accident, improper care, negligence or normal wear, where SKB is not at fault, are not covered.
